

ReferenceTitle of a SoundRecording

The `ReferenceTitle` of all `SoundRecording` elements must, in ERN-3, represent the track title and **not** the title of the album which contains the track.

Likewise, in `Track Releases` (i.e. where the `ReleaseType` is `TrackRelease`), the `ReferenceTitle` represents the track title and **not** the title of the album which contains the track.

The tag for the `ReferenceTitle` has been removed from ERN-4.
