

RightsClaimPolicy (update in v3.8.1 and ERN-4)

In the `NewReleaseMessage` it is possible to communicate a `RightsClaimPolicy`. Its structure has changed between different versions of ERN and users should be aware of these differences:

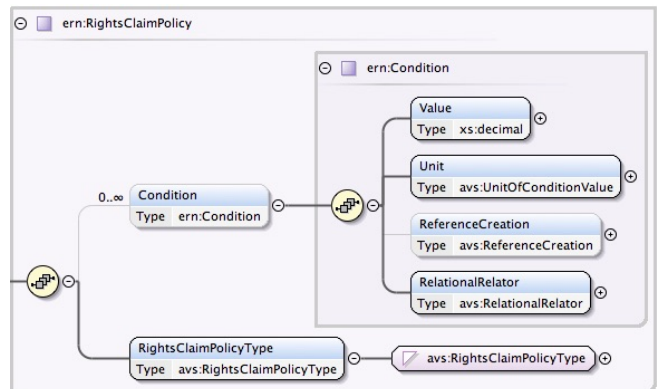

In versions 3.7, 3.7.1 and 3.8, a `RightsClaimPolicy` comprises of one mandatory `Condition` composite and one mandatory `RightsClaimPolicyType` allowed value set.

However this approach was found to be buggy and, as a consequence, ERN 3.8.1 was published where the `Condition` composite can now be provided multiple times, allowing several `Conditions` (or none) to be linked to a single policy. The `Condition` also now allows the signalling of whether the baseline for the evaluation of the `Condition` is the `ReferenceResource` or the `ConsumerResource`.

Schema in Versions 3.7.x, 3.8 and 3.8.1

Schema in Versions 3.8.2 and ERN-4

Below is an example for a `RightsClaimPolicy` which requests the DSP to report if 50% if the track found matches the reference resource and to block access if 75% are found.

Example for Versions 3.7.x, 3.8 and 3.8.1

Example for Versions 3.8.2 and ERN-4

```
<RightsClaimPolicy>
  <Condition>
    <Value>50</Value>
    <Unit>Percent</Unit>

  <RelationalRelator>MoreThan</
  RelationalRelator>
  </Condition>
  <RightsClaimPolicyType>ReportUsage<RightsClaimPolicyType>
</RightsClaimPolicy>

<RightsClaimPolicy>
  <Condition>
    <Value>75</Value>
    <Unit>Percent</Unit>

  <RelationalRelator>MoreThan</
  RelationalRelator>
  </Condition>
  <RightsClaimPolicyType>Block
  Access<RightsClaimPolicyType>
</RightsClaimPolicy>
```

```
<RightsClaimPolicy>
  <Condition>
    <Value>50</Value>
    <Unit>Percent</Unit>

  <ReferenceCreation>ConsumerResource<ReferenceCreation>

  <RelationalRelator>MoreThan</
  RelationalRelator>
  </Condition>
  <RightsClaimPolicyType>ReportUsage<RightsClaimPolicyType>
</RightsClaimPolicy>

<RightsClaimPolicy>
  <Condition>
    <Value>75</Value>
    <Unit>Percent</Unit>

  <ReferenceCreation>ConsumerResource<ReferenceCreation>

  <RelationalRelator>MoreThan</
  RelationalRelator>
  </Condition>
  <RightsClaimPolicyType>Block
  Access<RightsClaimPolicyType>
</RightsClaimPolicy>
```
