Overview of DDEX

2020 Webinars

Overview to DDEX's Standards

Introduction and ERN

DSR, MLC and RIN

MWN, MWL and Linking Works to Resources

Key Concepts of Identification and ISNI

Key concepts	
Cooperation	2 IDs for 1 work is not aligned
Flexibility	IDs that change over time are not helpful unless the ID system is temporary by design
Uniqueness	All items of interest need to be identified to rely on an ID system
Functional granularity	Ability to tell A from B (if someone needs it)
Robustness	Well defined
Interoperability	Well defined
Automaticity	Automatic
Endorsement/Validation	Trust the ID system, OR
